

# > Enduro Automatic Stretch Wrapper

## Productivity

- Wraps up to 16 items per minute (Max. speed can vary according to product, film and operator skill)
- Package in 3 easy steps: Place the tray on hot plate, pull down lid, removed packed item.
- Less film used and Reduction in film wastage

## Versatility

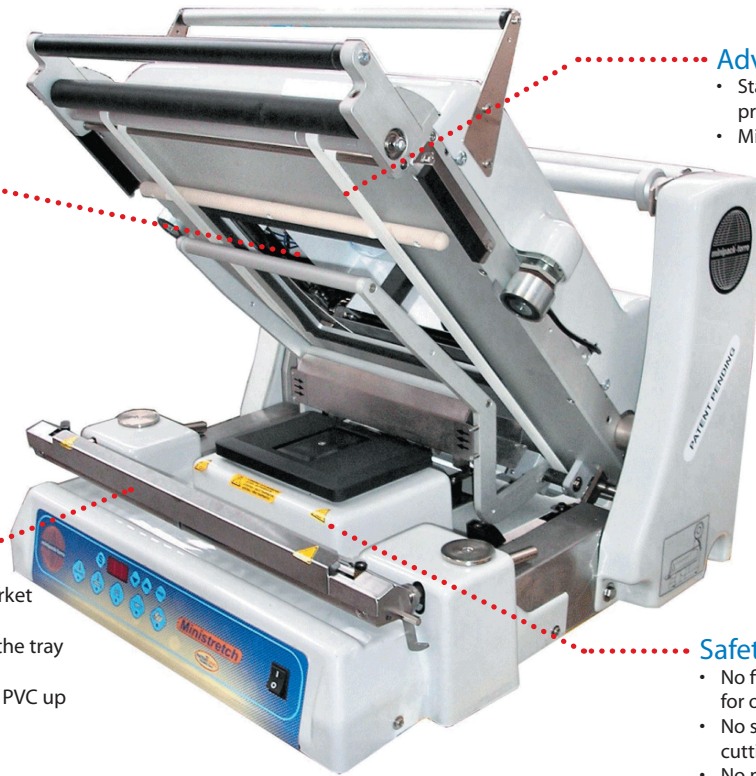

- Wraps most trays available on the market
- Easy adjustment and maintenance
- Ability to change the film tension on the tray directly from Control board
- Materials used: LLDPE, PE, Food grade PVC up to 8-40 micron.

## Advantages

- Staffing changes will not affect productivity
- Minimal physical effort required

## Safety

- No film cutters in sight, no way for operator to be injured
- No smoke emission during cutting of film
- No more carpal tunnel disease
